

2024

COMMUNITY LITTER INDEX REPORT

Presented by Keep Collier Beautiful

106 LOCATIONS

KCB volunteers and community partners assessed roadside litter in 106 locations across Collier County, ensuring accurate representation. This helps KCB monitor levels of litter and debris, so that we can take action and clean up specific locations.

LITTER ASSESSMENT

Locations were assessed using a scale of 1-4

“Minimal or No Litter”

The scorer may see one or two small items in a city block or equivalent. Any litter seen could be collected quickly by one individual.

“Littered”

Visible litter catches your eye frequently throughout the Site. An organized effort for removal is required with considerable effort to clean up the Site.

“Slightly Littered”

Litter is obvious, but the eye is not continually grabbed by littered items. The Site could be cleaned in a short period of time.

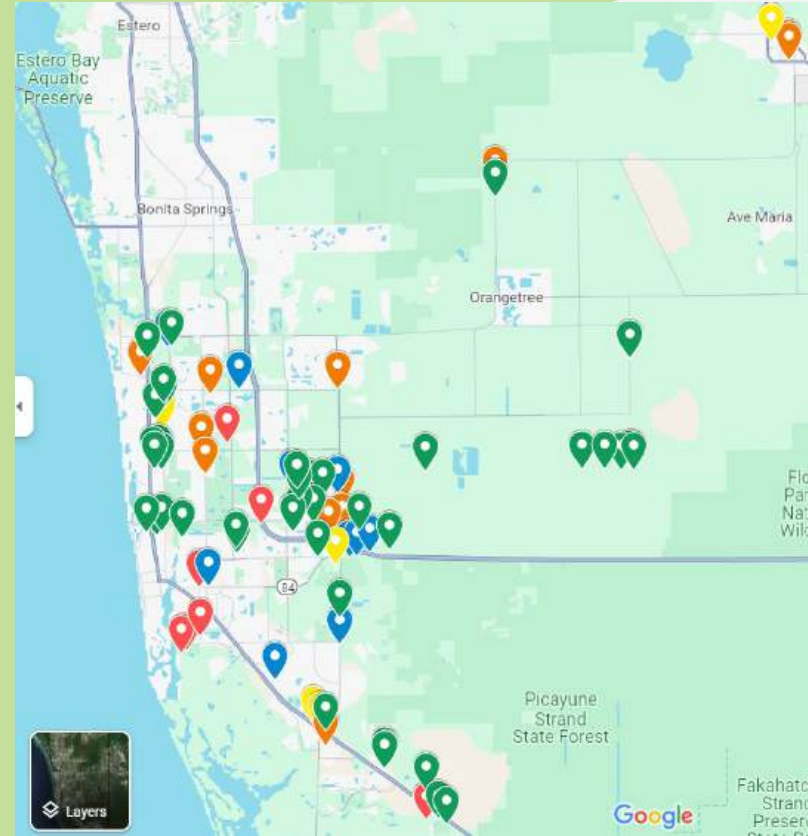

“Extremely Littered”

A continuous amount of litter is one of the first things noticed about the Site. Illegal dumpsites might be observed. Equipment may be required to clean up.
